

The Symposium on Yoga Research (SYR)

is a forum for the latest scientific research on yoga and yoga therapy. Yoga researchers have an opportunity to present recent findings, interact with colleagues and develop collaborations and initiatives. SYR also supports and encourages new investigators and yoga therapists interested in research involvement.

June 11–13, 2013

SYR is co-sponsored by Kripalu's
Institute of Extraordinary Living

The Symposium on Yoga Therapy and Research (SYTAR), IAYT's membership conference,

presents a broad spectrum of the best in professional education while showcasing important new research and opportunities for our field. Sessions are designed to enhance your knowledge, skills and competencies, as well as expand your horizons. Plenty of time is left open to connect with old and new friends.

June 13–16, 2013
